Correena Wee

Seeking Behavioural Analyst roles | Data-Driven Storyteller | Human-Centred Strategist

correenawsj@gmail.com | Personal Website

Psychology-trained professional who combines research, data analysis and learning design to understand why people behave the way they do and turn that into clear, usable insights. My work spans research, consultancy, education and customer-facing operations. In each role, I have been the connecting point between stakeholders, internal teams and end users. I bring analytical rigour that supports a longstanding curiosity about what drives people using a design-informed approach.

SKILLS

Data Analysis & Insights, Qualitative Research & Data Collection, UX Design, Communication & Storytelling, Cross-Functional Collaboration, Stakeholder Relationship Management, Project Management

EXPERIENCE

Associate Consultant, Strategic Partnerships & Programmes

SHRI, APRIL 2026 – OCTOBER 2026

- Led the design, planning and execution of an international HR Study Tour for a delegation of HR professionals, researching and synthesising strategic HR frameworks into structured, client-ready programme content and facilitated discussion sessions.
- Developed curriculum and training content with partner organisations, translating stakeholder requirements into structured, high-quality learning deliverables.
- Designed and implemented a consolidated faculty management framework, replacing siloed per-programme oversight with a unified structure, setting up a cross-programme faculty circle and closing quality assurance gaps in line with new sector regulatory guidelines.
- Served as the central point of contact across faculty, institutional partners and internal teams for a Diploma and Bachelor's programme, managing curriculum consistency, compliance and delivery performance end to end.

Operations Manager

WAVED (BEVERAGE TECHNOLOGY START-UP), APRIL 2023 - JANUARY 2026

- Reframed the science behind the company's technology after customers zoned out or stayed sceptical, applying psychological principles to communication and removing the jargon.
- Applied service design principles to training, teaching staff two approaches for different customer types and how to read the cues for each, achieving a 35% uplift in customer engagement and satisfaction scores.
- Identified training and capability gaps as a strategic partner to internal teams, and designed standardised learning playbooks that improved service consistency by 40% and cut onboarding time from 4 weeks to 2 weeks.
- Partnered with cross-functional stakeholders to align operational delivery with organisational objectives under tight, high-pressure timelines.

Head Barista

LE MATIN PATISSERIE, FEBRUARY 2022 - OCTOBER 2022

- Coordinated daily operations and team logistics for a high-volume service environment.
- Mentored and trained staff, embedding service standards and improving team performance.
- Created structured workflows and communication guides to support staff confidence and enhance customer satisfaction.
- Oversaw daily operations with a focus on employee wellbeing, safety, and excellent operational standards.

Programme Executive

SINGAPORE UNIVERSITY OF SOCIAL SCIENCES, JULY 2021 - FEBRUARY 2022

- Coordinated operations for a flagship degree programme serving 200 students, ensuring seamless learner journeys across academic touchpoints and reducing administrative friction, acting as the primary point of contact for inquiries and support.
- Acted as a central liaison across faculty, finance, and student stakeholders, facilitating collaboration and resolving misalignments to enhance overall programme outcomes.

Research Trainee

SINGAPORE UNIVERSITY OF SOCIAL SCIENCES, NOVEMBER 2020 - JULY 2021

- Managed a large-scale research study coordinating 1,000+ participants, overseeing end-to-end project logistics, data collection workflows and budget management within strict compliance requirements.
- Facilitated qualitative research activities, including focus groups and survey collection.

PROJECTS

baristamap: UX Research and Design (Solo Project)

JULY 2025 | View prototype

- Interviewed 15 people (8 professional and 7 home baristas) and compared three existing tools to find where learning to calibrate coffee gets stuck.
- Built a persona, user flow, wireframes and prototype for a guided brew log, then refined the graph and navigation through usability testing.

EDUCATION

University of Wollongong - Bachelor of Psychological Science (2020)

Singapore Polytechnic - Diploma in Integrated Events and Project Management (2016)

PROFESSIONAL DEVELOPMENT

42 Singapore - Discovery Piscine - Introduction to Python (November 2026, Upcoming)

Self-Directed - SQL (Ongoing)

Johns Hopkins University (Coursera) - Neuromarketing Specialisation (2026, In-progress)

General Assembly - User Experience Design Short Course (2025)

Click Academy Asia - Digital Marketing Measurement and Analytics (2022)

The Lion Mind - Graduate Diploma in Psychotherapeutic Approaches (Cognitive Behavioural Therapy) (2021)
